

## Madhu Maganti, CPA, CISA, MS

### Professional Experience

Madhu Maganti is a Director at Doeren Mayhew, where he leads the firm's IT Advisory and Security Group in Houston.

With more than 15 years of experience, Madhu work closely with clients across a variety of industries, including governmental, financial institutions, health care and more, to ensure compliance, identify security risks, mitigate threats and protect data. Through the firm's CYBERCLAW™ cybersecurity platform, Madhu also provides tailored solutions to help organizations of all sizes minimize their overall cybersecurity risk profile by conducting risk and vulnerability assessments, reviewing policies and procedures, advising on areas for remediation and more.

Madhu's background also includes performing IT strategy and planning engagements, and business process improvement and IT compliance assessments, including Health Insurance Portability and Accountability Act (HIPAA), Sarbanes Oxley (SOX) advisory and more.

Prior to joining the firm, Madhu gained industry knowledge and experience leading several IT and finance teams in Hewlett Packard, as well as serving as a Senior Manager at Berkeley Research Group and UHY Advisors.
